Without international search report and to be republished upon receipt of that report. Without classification; title and abstract not checked by the International Searching Authority.</i>
<b>(54) Title:</b> AGGLOMERATES BY CRYSTALLISATION		
<b>(57) Abstract</b>  The present invention describes novel agglomerates in crystalline form of $\beta$ -lactam compounds. Furthermore, a process for the preparation of said agglomerates, wherein a solution or suspension of at least one $\beta$ -lactam compound in a solvent is mixed with one or more anti-solvents has been described.
